## Fiscal Year 2017 Citizen-Centric Report

### GHC'S MISSION

Founded in 1965, Guam Housing Corporation was established for the purpose of providing mortgage financing for first time homeowners in the low to moderate income range, borrowers whom may otherwise not be able to obtain financing.

As part of its program Guam Housing Corporation owns 125 houses in Dededo and 24 apartment units in Yigo for providing rental opportunities for low to moderate income families.

### GHC'S GOALS

- Ensure that everyone has the opportunity to be a homeowner and that the Corporation has the resources to fund these programs.
- To assist in securing funding sources for low to moderate income families with lower interest rates, infrastructure needs, or to seek, newer technologies for lower costs in home construction.
- To secure funding for the programs under the Housing Trust Fund, ie First Time Homeowner Assistance Program and the Housing First pilot program.
- To promote the development of affordable homes.

# Challenges Moving Forward

## 1. The Housing Trust Fund Initiative,

### A. Funding:

GHC has come a long way in garnering strong support from many of the major players in obtaining a permanent funding source in favor of the "Housing Trust Fund Act". It is accepted that these programs are of great importance in solving many of Guam's housing problems. The Corporation continues to be successful in securing escheated funds for the First Time Homeowner Assistance Program as well as to establish the Housing First Program which is a program to assist the homeless. Unfortunately, the escheated funds received are insufficient to fund even one program.

The corporation has also been successful in penetrating another major hurdle in securing funding for the Housing Trust Fund. Bill number 145-34 as sponsored by Senator Telena C Nelson which includes the much sought after increase in the real estate transfer fee with a redirection of some of the funds to the Housing Trust Fund has passed legislative muster.

This source of funding, though limited, will have a tremendously positive effect on the housing initiatives supported by the Housing Trust Fund program, but, we are not done yet, there is still a long way to go.

Guam Housing Corporation continues to investigate other funding sources as practiced in other housing trust fund programs across the country.

### B. Programs:

There are home or housing problems that other lenders, non-profit housing corporations or HUD can not help with and that is where Guam Housing Corporation steps in;

- First-Time Home-Owner Assistance program
- Solutions for the island's homeless families
- Funding Land Trust applicants
- Financing alternative building systems
- Financing for first time home-owners, who have not been accepted by other lenders, etc.

All of which, plus others, are in use successfully across the country, however the funds in many of the sources noted above are already being used for other programs or otherwise out of reach.

GHC is appreciating a measured progress in securing a solid funding source in ensuring the success of the Housing Trust Fund Act, and its housing programs, however, there is still a long way to go.

## 2. Partnership:

GHC is also continuing the pursuit of developing affordable housing through alternative building systems. An Invitation For Design Submission (IDS) was announced to potential developers interested in constructing affordable homes by utilizing cost effective materials (i.e., metal, composite concrete, fiber panes, etc,...) to significantly reduce the price of building a home. Collaboration with Chamorro Land Trust Commission and Department of Land Management resulted in indentifying ten (10) lots in the Sagan Linahyan Sub-division to build model homes from these materials to promote interest and market affordable/ alternative building systems. The first of many model homes have been completed with more soon to follow. These alternative buildings will make the Guamanian dream of home ownership a reality for many.
